GROUP OF COMPANIES

The 8-fold strength

The FLUID PROCESS GROUP

KIESELMANN, formerly solely a valve manufacturer, has merged various companies into an efficient group.

The benefits – one central contact for your entire project.

The companies of the FLUID PROCESS GROUP complement each other in an ideal way. Our customers benefit from synergy effects. We are an experienced partner for all processes and tasks related to fluid technology in the food industry as well as the chemical, pharmaceutical and biotechnological industries.

Our products and services

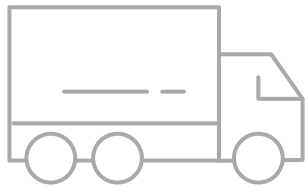

From tank and pipeline construction to valve and cleaning technology to further processing – the FLUID PROCESS GROUP offers you solutions and the equipment to successfully produce liquid and pasty media. Everything from a single source.

Bundled know-how leads to your success: Our team of engineers, beverage technologists, master brewers and experienced skilled workers in our state-of-the-art production facilities ensure perfect implementation.

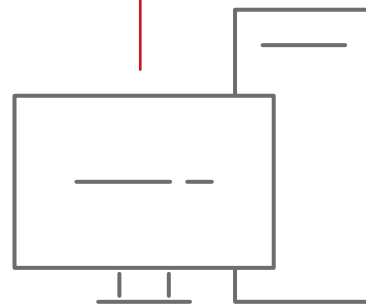

Benefit from short distances and well-established processes within the group.

PROCESS

Safe control and storage of liquid media

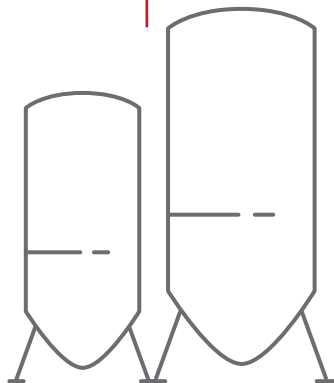

Delivery

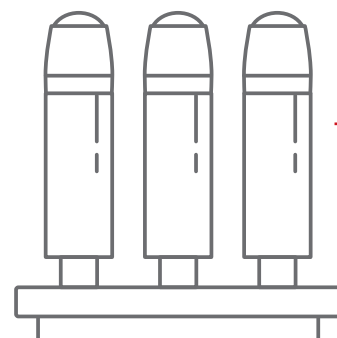

Process automation

VALVE TECHNOLOGY

KIESELMANN GmbH

Production and distribution of stainless steel fittings, stainless steel valves as well as small systems and retail with stainless steel tubes.

Industries

Beverage, dairy, food, pharmaceutical and cosmetic industries

Facts

- > Founded in 1937
- > Headquarters in Knittlingen, Germany
- > 28 agencies worldwide
- > 4 subsidiaries in China, Russia, Great Britain and France
- > 348 employees
- > Tube storage contains over 200,000 metres of stainless steel tube (DN 10 – 300)

Portfolio

- > Tubes, carrier tubes and pipe fittings
- > Screw joints, flanges
- > Ball valves, butterfly valves, leakage butterfly valves
- > Single-seat and double-seat valves, control, flow throttle, overflow and non-return valves
- > Aseptic valves
- > Safety valves, bunging valves, tank top units, pressure compensation and vacuum valves
- > KZE and system valves
- > Sight glasses, inline technology, filters
- > Assembly and maintenance service

www.kieselmann.com

Guth Ventiltechnik GmbH

Production and distribution of stainless steel fittings and stainless steel valves, custom-made products.

Industries

Beverage and food companies, pharmaceutical, biotechnological and cosmetic industries

Facts

- > Founded in 1861
- > Located in Landau, Germany
- > 11 agencies worldwide
- > 61 employees

Portfolio

- > Butterfly, double-butterfly and high-pressure butterfly valves
- > Dirt traps, tank bottom valves
- > Single-seat, overflow and non-return valves, variable two-way changeover valves, mini valves
- > Control valves with diaphragm actuator from GUTH and linear actuator from KIESELMANN
- > Safety valves, KZE and system valves
- > Part-turn valves
- > Mixing devices
- > Special valves according to customer requirements

www.guth-vt.de/en

TANKS AND VESSELS

RIEGER Behälterbau GmbH and GROSS Behälterbau GmbH

Customised stainless steel tanks and vessels of all types and sizes. From the individual offer to consulting, planning, 3D-drawing, statics, production, freight organisation, assembly and documentation.

Industries

Wine, fruit juice and dairy industries, breweries, mineral springs, general beverage/food, pharmaceutical/cosmetic and chemical industries, water treatment, etc.

Facts

- > Founded in 1952
- > Located in Bietigheim-Bissingen, Germany
- > 144 employees

Portfolio

- > Fermentation and storage tanks
- > Pressure, vacuum and stirring tanks
- > Process tanks
- > Sterile tanks
- > Fermenters
- > CIP and WHG vessels
- > Silo construction
- > Walk-through facilities
- > Temperature control (spiral/pillow/half tube)

Dimensions:

- > Up to approx. \varnothing 6,000 mm
- > Up to approx. 25,000 mm length
- > Up to approx. 25 t total weight

Industries

Breweries, pharmaceutical industry, etc.

Facts

- > Founded in 1934
- > Located in Steißlingen, Germany
- > 36 employees

Portfolio

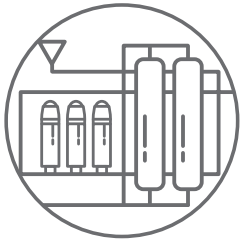

- > Cylinder conical fermentation and storage tanks
- > CIP, storage and yeast vessels
- > Pressure tanks
- > Transport tanks
- > Filter
- > Spent grains silos
- > Temperature control (helix/half tube)

Dimensions:

- > Up to approx. \varnothing 5,000 mm
- > Up to approx. 24,000 mm length
- > Up to approx. 20 t total weight

PLANT ENGINEERING

KIESELMANN

FLUID PROCESS GROUP

KIESELMANN Anlagenbau GmbH

Project planning, assembly and commissioning of turnkey process systems for liquid, lumpy and pasty media.

Industries

Beverage and food production and the chemical industry

Facts

- > Founded in 1973
- > Headquarters in Knittlingen, Germany
- > Agencies worldwide via KIESELMANN
- > 28 employees

Portfolio

- > Fermentation and storage cellars
- > Yeast cultivation, propagation and storage facilities
- > Tank farms, sterile tank farms, pressure tank cellars
- > CIP and pigging systems
- > Water deaeration systems
- > In-line dosage systems (units)
- > Flash pasteurisation systems
- > Carbo-blenders
- > Blending systems
- > Filtration and filling plant tubing, CIP tubing
- > Blending trestle plants
- > Double-tube heat exchangers
- > Syrup room/dissolving station

All solutions, if technically justifiable and reasonable, also as prefabricated plant on base frame, transportable.

www.kieselmann.com

KIESELMANN

FLUID PROCESS GROUP

KIESELMANN Pharmatec GmbH

Project planning, assembly, commissioning and documentation of units up to complete plants.

Industries

Pharmaceuticals and biotechnology

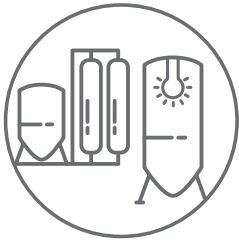

Facts

- > Founded in 2015
- > Located in Knittlingen, Germany
- > Agencies worldwide via KIESELMANN
- > 15 employees

Portfolio

- > Concept
- > 3D planning
- > Project management
- > Manufacturing
- > Automation
- > Assembly
- > Commissioning
- > Plant qualification with FAT, SAT, DQ, IQ and OQ
- > GMP-compliant documentation incl. maintenance and calibration specifications in accordance with regulations

www.kieselmann.com/pharmatec

PLANT ENGINEERING AND CLEANING TECHNOLOGY

VA Food Processing

FLUID PROCESS GROUP

VA GmbH Gesellschaft für Food-Processing

Planning, production and installation of process plants and units for the food industry with a focus on the dairy industry.

Industries

Food, focus on dairy industry

Facts

- > Founded in 1993
- > Located in Stuttgart-Möhringen, Germany
- > Assembly centre Heilbronn
- > Agencies worldwide via KIESELMANN
- > 46 employees

Portfolio

- > Filtrations
- > Membrane process for fractionation/concentration of whey and milk protein
- > Microparticulation
- > PAST+ process for flavour-optimised ESL milk
- > Plants for the production of low-germ whey powder
- > Detailed planning/RI schemes/quantity balances
- > Mechanical and electrical/pneumatic
- > Assembly and commissioning
- > Programming/visualisation
- > Maintenance and spare parts procurement

www.va-group.de

AquaDuna

FLUID PROCESS GROUP

AquaDuna GmbH & Co. KG

Production of cleaning technology for efficient and economical cleaning of process, tank and container systems. Control technology for valves in the liquid processing industry.

Industries

Food, chemical and pharmaceutical industry

Facts

- > Founded in 1978
- > Located in Sternenfels, Germany
- > Agencies worldwide via KIESELMANN
- > 44 employees

Portfolio

- > Spray, rotary and target jet cleaners with individual adaptation to the process
- > Retractable and extendable cleaning systems
- > Optimisation of the cleaning process
- > Validation of the cleaning
- > Control heads for process valves
